

## THE BURMA CAMPAIGN 'DIRTY LIST'

In response to calls from Burma's democracy movement, the Burma Campaign UK and other campaign groups around the world have been pressuring companies to sever business ties with Burma.

Please contact one or more of the companies on the Dirty List and ask them to cut their ties with Burma's military government. If appropriate, tell them you will not purchase their products as long as they continue to support the regime in Burma. Letters written in your own words are most effective. If you don't have much time, don't worry - just one or two paragraphs will do. Please be polite!

We would be grateful if you could send us a copy of any responses you receive.

### **A World Away Travels - NEW**

A World Away Travels is a US tour operator claiming to offer 'adventure travel's unique experience'. Included in this experience are four different tours to and around Burma. ### **Swift**

Swift is a financial services co-operative company owned and controlled by many of the world's largest banks, including Citibank, HSBC and ABN Amro. Swift hosts an electronic network that banks use to make transfers to each other. Following the imposition of financial sanctions by the United States government in August 2003 the regime faced a crisis, unable to use dollars in financial transactions. Swift came to their aid, making four Burmese banks part of its network. The regime is now able to avoid US financial sanctions by making financial transfers in Euros using Swift's network.
